ACADEMIC ACTIVITIES

1. A CDE programme is being organised in the Department on 18.12.2014: Bleeding gums & its management. CDE programmes are organised on a regular basis on different contemporary topics.
2. Junior Members of the Departments are encouraged to prepare a topic on routine dental treatment & its complications
3. Chairside discussions on special cases of academic interest are undertaken regularly.
4. College committee has accepted the proposal for expansion of the dental dept. and the attached Suraksha clinic has been allotted and the renovation process is on going.

This is one of the few departments in this premiere Post Graduate Institute where PG course has not been introduced. We urge the administration to pursue the previous commitment towards introduction of M.D.S courses in this elite institute.

SERVICE INFORMATION

OPD locations

Annexed to Emergency building 1st floor adjacent to Dept. of Radiology & Suraksha clinic the dental dept is supposed to get a larger area and beyond of radiation zone as well as out of contaminated environment of the hospitalised patients of NCB (New Casualty Block) Ward blocking the entrance of the department.
