Memo No./Inst./: 4795

Date: 01/08/2026

Sealed quotations are invited from bona fide/interested firms for the below mentioned item with superscription "Development of Innovative Diagnostics of fungal Diseases in India: Addressing a Neglected Public Health Concern" (Project No.: DR/MD/PM-ABHIM (Myco/2025, RFC No. – PMABHIM/C8/11/2025-26)), Department of Microbiology. **Bidders must enclose the Technical Bid and Financial Bid in separate sealed envelopes. These two envelopes must be placed within a single sealed outer envelope bearing the specified superscription and advertisement memo number.** The quotations should reach the office of the undersigned on or before 08/08/2026, 2.P.M. The technical bid should accompany with current valid trade license, PAN No. and GST registration certificate proof. The undersigned reserves the right to accept or reject any offer without assigning any reason whatsoever.

Rate must be submitted with company name and Cat. No. after calculating GST or other taxes, if any, according to the following format.

The quotation may be opened on or after 11/08/2026; bona fide/interested firm's representative may contact.

Sl. No.	Name of the item	Specification	Quantity	Validity
1.	IMMY: sōna Aspergillus Galactomannan Lateral Flow Assay Kit (GM LFA)	1. Non-automated immunochromatographic lateral flow assay for qualitative detection of Aspergillus galactomannan antigen. 2. Validated for both human serum and bronchoalveolar lavage (BAL) specimens. 3. Complete kit should include test strips, sample pretreatment buffer, running buffer and positive control. 4. Sample pretreatment should support heat block or boiling water method. 5. Result incubation time not more than 30 minutes. 6. Results to be interpreted using a dedicated reader supplied/compatible with the assay. 7. Reader should provide objective qualitative interpretation (Positive/Negative/Invalid) with numerical index value. 8. Positive cut-off/index should be manufacturer-defined and lot calibrated. 9. Internal control line and external positive control should be included. 10. Intended for professional in-vitro diagnostic laboratory use. 11. Literature-supported clinical performance with analytical sensitivity suitable for invasive aspergillosis diagnosis.	2 (50*2=100 Reactions)	1 year
